TRAGEDY FOLLOWS HUMOR IN MUSIC

Forty-Third Public Organ Recital Occurs This Afternoon

Humor in music is almost unheard of, but this is the unexplored field of organ music exploited in "The Tragedy of a Tin Soldier," a suite in miniature by Stravinsky, to be played by Ernest Frye, organist, at the forty-third public organ recital at the First Christian church at 3:30 o'clock Sunday afternoon.

The humor in the composition is, however, suggestive rather than descriptive, thus conforming to the best ideals of programmatic art. With steady, insistent rhythm is pictured the little soldier's return from the war, his heart beating high with love, which turns to bitter grief as he finds his rival usurping his place. All the joys of spring turned to gray, he sings his farewell serenade and dies. His death march as a fitting finale uses part of the thematic material of the first number, but in a grief-laden minor development which brings this tragic tale to a close.

Leland P. Harrington, basso, will assist on the program. Numbers will be: (a) "Grand Chorus," Opus 59, No. 2 (Gullmunt). (b) "The Chorus in March form is written in Gregorian tonality. The Gregorian scales comprised eight successive tones without the half steps, as we have them today. (c) "Communion," Opus 59, No. 2 (Gullmunt). One of the most effective compositions bearing that title and played very frequently. (d) "Scherzo Symphonique," Opus 55, No. 2 (Gullmunt). This has vivacious movement and sharp and unexpected contrasts in rhythm and harmony. (e) Bass solo, aria, "Lord God of Abraham," from "The Elijah" (Mendelssohn).

(1) "The Tragedy of a Tin Soldier" (Nevin). (2) Bass solo, aria, "With this heart I dwell" from the "Magic Flute" (Mozart). (3) Organ solo: (a) "Evening Bell and Cradle Song" (McFarlane). An effective chime piece by Will C. McFarlane, at one time municipal organist of Portland, Maine. He has dedicated this music to Edwin Arthur Kraft, organist of Cleveland, Ohio. (b) "Etude for Pedals Alone" (De Brieuxville). This pedal study is one of few written to be played upon the pedal organ, without the use of any of the manuals. (c) "The Rosary" (Nevin) (request). "The Rosary" is originally a very popular sacred song, Eberhart Nevin, the composer, was an exceptionally talented American musician, who died when he was only 29 years of age. (d) "Military March," Opus 61, No. 1 (Schubert) (request, Franz Schubert great German composer, wrote three military marches, of which this is the most popular and well-known. It is often spoken of as the "Schubert-Tausig Military March," because it was arranged for concert use by the great pianist and pedagogue, Carl Tausig.

Too Many Olesons. Mary Alden of the Goldenrod players is not as a raconteur. Her latest story is about a Swede who went into the post office of a village in the Canadian wilds and said he wanted a letter from Minnesota and that his name was Ole Oleson. When the postmistress said there were no letters for Ole Oleson in her possession, but that there were addressed to several men by that name in the village and that the newcomer would have to be identified, he shuffled out of the office, saying in disgust: "A Yankee better change his name to Yank Yohnson, mebber."

What Is a Bank?

Most people think of a bank as merely a place to put money so they will not lose it—a sort of modern substitute for the bureau drawer, open or strong box.

It is more than that.

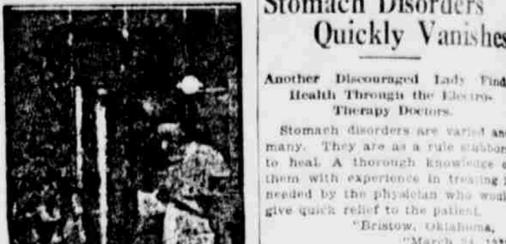

The First National Bank is an association of experts who have made a careful study of money, its cares, its uses and the way to make a profit from it. They know money just as the merchant knows his wares, and they are ready at all times to advise you on money matters.

You are invited to consult our officers on any subject relating to finance, with the assurance that their judgment is disinterested and without sentiment. They will tell you what they think is best for YOU.

Stomach Disorders Quickly Vanishes

Another Discouraged Lady Finds Health Through the Electro-Therapy Doctors.

Stomach disorders are varied and many. They are as a rule stubborn to heal. A thorough knowledge of them with experience in treating a needed by the physician who would give quick relief to the patient.

"Bristow, Oklahoma, March 24, 1921.

"To Whom It May Concern: I have been ailing for the past three years, feeling so miserable I can hardly describe it. I would get a terrible dull heavy feeling in the pit of my stomach and my pain was so great there was no position I could remain in that would relieve the pain. During my illness there were times when I would have to call in a doctor to give me some opiate to obtain relief. I formerly consulted several doctors without getting relief and finally went to The Electro-Therapy Doctors at 213 1/2 South Boston St. Tulsa, to see what they could do for me. After the second week's treatment I began to notice a lot of difference. The pain began to get less and less until now I have no pain whatever. My general health has improved all around. I am glad to make this statement for the benefit of any who suffer as I did.

(Signed) "MRS. JOHN ROBERTS"

Among the diseases treated by the Electro-Therapy Doctors are chronic and deep seated diseases of the nerve, blood, heart, liver, kidneys, bladder, spine, brain, also rheumatism, paralysis, epilepsy, gall stones, gutta, indigestion, constipation, dyspepsia, catarrh, deafness, asthma, neuritis, rupture and other diseases of women and men.

In addition to the Electrical and other treatment methods is the wonderful system of medicine used by the Electro-Therapy Doctors. They have combined the three main systems of medicine, viz: The Allopathic, Homeopathic and Eclectic systems of medicine into one single system from which such medicines as the patient may require are selected.

Consultation, advice and examination, including the X-Ray, Chemical Analysis and Blood Pressure test entirely free. Such is the offer made by the Electro-Therapy Doctors to the sick and ailing who call upon them during the next seven days.

The Electro-Therapy Institute is located on the second floor at 213 1/2 South Boston St. (between Second and Third Streets).

Office hours are daily 9 a. m. to 5 p. m., except Tuesday and Friday, when hours are 9 a. m. to 5 p. m. Sunday hours are 10 a. m. to 1 p. m.

Years of Misery From Gall Stones

Gall Stones are known as one of the most painful of all afflictions and I have suffered years with gall stones and a great deal of stomach trouble, says Mrs. W. H. Holder of Tulsa, Okla., in referring to her condition of health upon going to the Electro-Therapy Doctors for treatment. "I had intense pains through the stomach and side and nothing I could do seemed to help me. I treated with many doctors with practically no result until I got to the Electro-Therapy Doctors of Tulsa. After a few weeks' treatment my pain left me and I have not had it since. I feel better in all ways and am indeed grateful for the result I am obtaining. This is the longest I have gone without pain in years."

"I am glad to advise others who may be suffering as I was about the results I have obtained—and in fact I have told many of my friends about it."

The above statement of Mrs. Holder is but one of many given the Electro-Therapy Doctors and shows how good work they are accomplishing. Sick and ailing people cannot do better than to call upon them.

Kidney Trouble Bothered for Years

Tulsa, Oklahoma, March 24, 1921.

"To the Public—I have been sick for about six years with kidney trouble. My limbs would swell and was generally run down all over and felt bad most of the time. I started treatment with the Electro-Therapy Doctors, 213 1/2 South Boston St., and within a week began to notice a decided change for the better in my condition. The swelling in my limbs decreased, my blood pressure went down over 10 degrees and I began to feel better in all ways. At present I feel fine in all ways. I do not get tired as I used to and am pleased with my condition. I would like to see other people who may be troubled with kidney trouble. (Signed) "MARY JOHNSON."

The above is one of many statements of patients given the Electro-Therapy Doctors monthly.

Modern Methods For Ailing Men

Electro-Therapy Doctors Treat So-called "Familiar" Men.

Rectal troubles, including hemorrhoids, fistula, fissures and piles, yield readily to the Electro-Therapy treatment, and the best for treatment is so moderate that no other method of treatment is necessary. Kidney, bladder, and prostate troubles may have more complications than are presented by what is suffered in — blood poisoning. Blood poisoning requires not only knowledge of the disease—but the ability to properly administer the treatment which in some cases require the famous "666" and "914" treatment originated by Dr. Paul Ehrlich, the late European chemist, winner of the Nobel prize. These remedies are also used in the treatment of "666" and "914" treatment.

New Hair Growth After BALDNESS

Legal affidavit, John Hart Brittain, business man, certified to this: "My head at the top and back was absolutely bald and that the hair roots were extinct, and there was no hope of my ever having a new hair growth."

"Yet now, at an age over 60, I have a luxuriant growth of soft, strong, lustrous hair. No trace of baldness. The pictures show here are from my photographs."

INDIANS' SECRET OF HAIR GROWTH

Mr. Brittain certified further: "At a time when I had become discouraged at trying to grow my hair again, I came across, in my travels, a Cherokee Indian medicine man who had an elixir that he asserted would grow my hair. Although I had little faith I gave it a trial. To my amazement a light fuzz soon appeared. It developed, day by day, into a healthy growth, and ere long my hair was as prolific as in my youthful days."

True Hair Grower at Last

"That I was astonished and happy in expressing my state of mind. Obviously, the hair roots had not been dead, but were dormant in the scalp, awaiting the fertilizing potency of the famous pomade. I investigated for and found the principle for preparing this, now called KOTALKO, and later had the recipe put into practical form by a chemist. That my own hair growth was permanent has been amply proved."

It has been proved in very many cases that hair roots do not die when the hair falls out through drought, fever, alopecia areata, or certain other hair or scalp disorders.
